**Join us for an engaging, hands on experience that will enhance your child's abilities allowing them to master grade level standards.**

This will increase their critical and higher level thinking skills helping them understand academic concepts.

Our program provides real world experiences which build skills your child will use forever. Activities include both **STEAM** (Science, Technology, Engineering, Art, Mathematics) and **STEM** (Science, Technology, Engineering, Mathematics)

**Please call 321.984.2710 with questions or concerns.**

Hope to see your child this summer.
